

Denial of the Holocaust

—On Anti-semitism in Post-War Era

XU, Xin

The Holocaust denial is one of the most typical performances of post-war anti-semitic. The essence of the denial, rather than to reverse the verdict of the crimes committed by the Nazi, is to denigrate the legitimacy of modern Jewish state and to denigrate and hate against the Jews in a new way. It is obviously a continuation of anti-semitism in contemporary history. Therefore, to expose and fight against the Holocaust denial is an important aspect of fighting against anti-semitism. This article attempts, through accounts and analyses of the rise, development and essence of the Holocaust denial, to raise our awareness of its anti-semitic, in order to further understand the importance of fighting against anti-semitism in our time.
